

Dear Praying Friends,

For those of you who have been on our "knee-mail" list for a long time you already know who our dear brother Gregor is. Thank you for the way you pray for him.

For those of you new to our list, he is an Albanian who came to the Lord in Athens, started a church in Skoder, Albania, and has been with his family in KOSOVO church-planting among Muslims for some years now.

Please read his recent prayer requests below and pray. THANKS!

Grateful,

Scott & Vicki McCracken

Dear Friends,

On Friday, I will restart with the TV program. (record on Friday - shown on Saturday). Now the MEN TV station is on cable TV as well and is now modernised thoroughly in its equipment and staff.

Programs will be shown on Saturday nights at 9:30.

I am encouraged this is a great opportunity to take the gospel message to tens of thousands of homes, in a muslim country.

First program is going to be recorded, but then we want to do the rest live and with interaction from the public.(email messages - sms messages and phone calls) This is first challenge. The previous times we recorded first the program, that gave me freedom for mistakes.

Second challenge : The program is going to be one hour long, once a week.
This means I have to invite at least one guest each time. More work to contact pastors and other leaders around the country. First program was about 20 minutes and most of the time I was by myself

Third challenge: Finances. Although we are basically only to cover costs I still need to raise 600 USD a month for this.. This is money we don't have but we are starting by faith...

These are things we would appreciate your prayers about, and if you know how we can get some help with the financial contributions we will need, it will be great to hear from you ...

Blessings
In Jesus Christ

Saturday, November 1, 2008

Dear Friends,

Last week we have been going door to door, starting at the neighborhood of the church, inviting people to the Sunday meeting. We have prepared nice brochures with a gospel message (written having in mind the readers in Gjilan) and church info, and also a nice invitation for Sunday. We have been going to about 800 houses during the week. Every day before going out we have had a prayer meeting has been generally a very good experience. People have been friendly and we have meet a handful who said they have been waiting for a Christian church to come to town, and they did not know it was already here.

I received only one phone call from un upset Muslim that continues to send me e-mails telling me I am going to hell.

Tomorrow we will see the turn out. We might have a problem with space if the turn out is more then we expect (or have faith for ... :-)) We are changing a few things about the church Sunday meeting to make more unbelievers welcome. Please pray for this.

Next week (and for the rest of the year) we will be continue to distribute invitations two days a week (calculating to be visiting about 300 homes each week. Gjilan is a big town and it will take us time to go through, but also will give to us the possibility to absorb those appointed unto salvation.

Also last night we recorded the first talk show for the TV MEN. One hour and 3 minutes. It will go on the air tonight at 9:30 local time. The theme of the talk was : The relationship between the human heart and the society. Continue to pray for the financial provision for this

Please continue to pray for all these things and that as busy as we are can continue to find quality time with the Lord and as a family.

Also in an another week or so I will need to take my mother (who has cancer) back for tests to Albania ... So far her liver seems to be working well.

Thank you for praying for us

In Christ
